

High School Seniors Eligible For Armco Scholarship

A four-year scholarship, valued at \$650 a year, will again be awarded to some high school senior in the Torrance area by Armco Steel Corporation.

The scholarship here is one of 20 offered by Armco in the communities where it has plants. It was established in 1949, following the merger of the National Supply Company with Armco.

Robert K. Weatherwax, Jr., of Whittier, was winner of the 1962 scholarship. Competition for the 1963

scholarship is open to seniors in public, private, or parochial schools in the Torrance or Whittier school districts who plan to major in engineering, chemistry, or physics.

It is not limited to sons and daughters of National Supply employees. However, sons and daughters of employees at National's Torrance or Los Nietos plants are eligible to compete even if they attend high schools in adjacent communities. The winner may attend

any accredited college or university. If the winner enrolls in a privately-supported institution, that institution will receive \$500 a year additional from the Armco Foundation as a cost-of-education supplement.

An additional scholarship, known as the George M. Verity Memorial Scholarship, is open only to sons and daughters of Armco or National Supply employees, without geographical limitation. This also is a four-year scholarship, but is valued at

\$1,000 for the first year, and \$750 for each of the three following years. Aptitude tests will be given in the high schools Oct. 16 and 20. Full particulars about the competition, covering who is eligible, how to apply, and how winners are selected, are contained in a booklet entitled "Armco Community Scholarships."

Copies may be obtained from Joseph F. Burley, superintendent, industrial relations, at National Supply's Torrance plant.

Prenatal Care Class Topic

Classes on prenatal care, childbirth and infant care for mothers-to-be will be given by the Los Angeles County Health Department at its Torrance Health Center, 2300 W. Carson St., starting Thursday at 1 p.m., announced D. E. W. Kendrick, district health officer. The seven class series will be the only one given by the department this fall, said the doctor.

Motion picture films on childbirth, prenatal care and infant care will be shown. Demonstrations on formula making, layettes and bathing of the infant will also be featured, according to Roberta Ellis, public health nurse-instructor.

The expectant parents' classes of the County Health Department are part of the educational service of the department. They are conducted free for patients of private physicians. In no way do they take the place of early and adequate medical care.

For additional information, call the County Health Department at FAirfax 8-3810, extension 21.

Increase Told At Cabrillo

An increase of nearly 20 percent in assets for the past quarter is reported by Cabrillo Savings, located in Rolling Hills Shopping Plaza, Torrance.

President and Chairman of the Board Pietro DiCarlo announces assets are now \$5,250,000. In addition to many new individual and family accounts, there has been a sharp upturn in the opening of sales tax deposit accounts by local businessmen, according to Manager Fred Strohmenger.

Retailers can transfer their Board of Equalization deposits to a certificate account at Cabrillo Savings and receive quarterly interest on the funds.

Cabrillo's board has voted to continue the "instant interest" plan, which permits savers to earn up to 21 days extra interest in a quarter, at the current annual rate of 4.75 percent.

Mobile Homes

Travel trailer exhibitors at the mammoth 10th Annual Mobile Home and Travel Trailer Show, Oct. 11 to 14, at Great Western Exhibit Center, are taking dead aim on the family trade with the 1963 models.

Jack Wells, president of the sponsoring Trailer Coach Association, reports that over 100 models in vacation and travel trailers scheduled for exhibit "are literally masterpieces in design for living in comfort on the road."

Breast Feeding League Forming

For the benefit of Torrance area women interested in "good mothering through breast feeding," a local branch of the international La Leche League is being established in this area.

La Leche ("milk" in Spanish) League is a non-profit, non-sectarian organization

which originally was established in Franklin Park, Ill. The league now has groups in many states and various foreign countries.

South Bay women interested in joining or learning more about the new local branch are requested to call Mrs. Rae Rector, FR 1-7055, or Mrs. Jody Nathanson, FR 8-3720.

SENSE AND SHAPE

The Automobile Club of Southern California points out that caution, courtesy, and common sense while driving mean nothing unless your car is in top mechanical condition. Check your car periodically for mechanical defects. It will add to your peace of mind to know your car is in the best possible condition.
